

SERVICES AND PROCESSING

Custom technical training
Product selection and sizing
Application analysis
Repair of large bearings
Condition monitoring
Gearbox assembly and reconditioning
Reconditioning of cardan shafts
Cutting and customization of guides, screws, chains, and belts

Consulting for the creation of pneumatic and lubrication systems
Assembly of valves and air treatment units
Air leak survey
Technical support for custom and special seals
Customized component kits
Dedicated warehouses
Induction heater rental (also for large components)

We offer pre and post sales technical assistance

B2B E-STORE

Advanced product search

Constantly updated technical documentation

History consultation

Invoice and delivery note consultation

Shipping tracking even for non-B2B orders

STRENGTHS:

- 24/7 accessibility
- Priority on shipment orders
- Technical information readily available
- Wide stock availability and complete product range
- EDI integration and main e-procurement and Punch-Out services

Visit our B2B E-Store for urgent orders: b2b.bianchi-industrial.it

DRIVEN BY EXCELLENCE SINCE 1921

PRODUCTS AND SPECIALIZATIONS

THE RIGHT ANSWER FOR ALL REQUIREMENTS

Bianchi Industrial is a company of Gruppo Bianchi. A European leader in industrial distribution, it has extensive experience serving various industry sectors, with deep product knowledge and application needs. Thanks to partnerships with excellent suppliers, it offers a complete range of products, providing customers with the best solutions to enhance productivity and reduce plant costs.

BEYOND QUALITY, THE CERTAINTY OF THE BRAND

Bianchi Industrial has always been committed to fighting counterfeiting alongside leading market producers. To confirm its continuous commitment to the customer, it applies the B.O.C. (Bianchi Original Components) seal on all shipments, guaranteeing the certified origin of the components supplied through the entire distribution network.

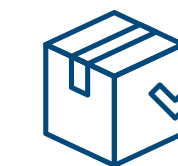

1. **Purchase only from verified Sources**

The manufacturer places an identification code on the goods. Bianchi Industrial only purchases from the source or official distributors who can prove they bought directly from the manufacturer.

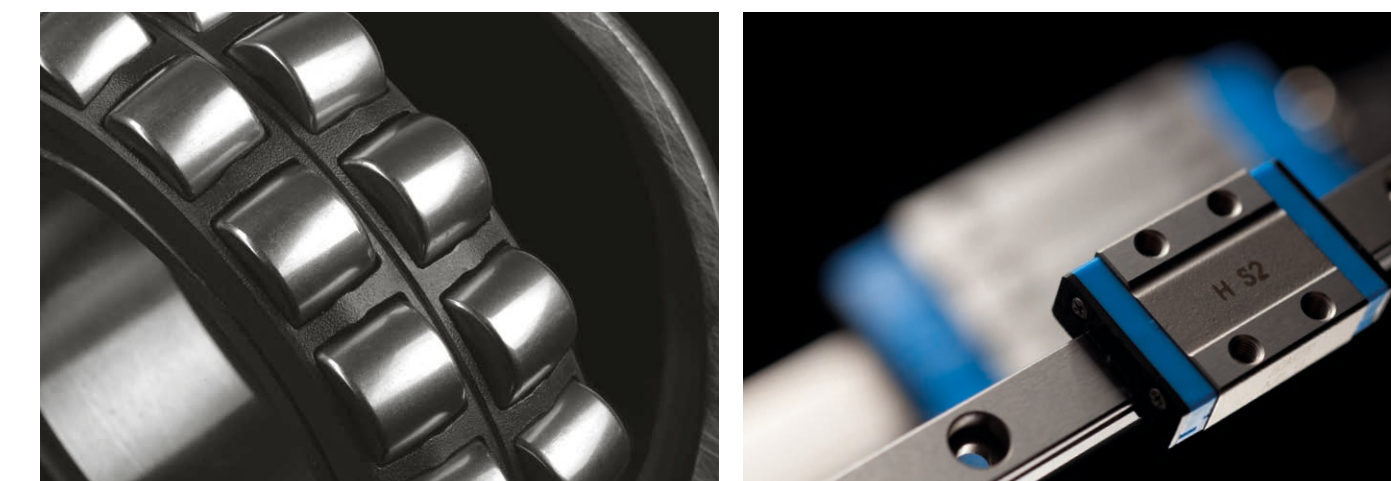

2. **Accurate Controls**

Bianchi Industrial systematically checks the codes of every received item and verifies the content. Only premium original components enter our logistics hubs.

3. **Seal**

Only after the process is complete, Bianchi Industrial applies the seal to goods that have passed all inspections, offering the customer certainty about their purchase.

ENGINEERED BEARINGS

- Super precision bearings
- Ball bearings
- Bearings with solid lubricant
- Crossed roller bearings
- Cylindrical roller bearings, tapered roller bearings, spherical roller bearings, and ball bearings
- Solid or split, self aligning housed bearing units
- Needle bearings and cam followers
- Plain bearings
- Precision locknuts
- Spherical plain bearings

POWER TRANSMISSION

- Belts
- Brakes and clutches / Torque limiters
- Chains
- Couplings and cardan shafts
- Gear boxes and electric motors
- Gear set worm shaft / worm wheels
- Elastic / rigid couplings
- Precision planetary gearboxes and gearmotors
- Pulleys and shaft locking devices
- Right-angle gearboxes and screw jacks
- Roll Ring chain tensioner
- Shaft-hub locking devices

LINEAR MOTION

- Ball and roller linear guides
- Ball Bushings
- Ball Spline
- High-Speed ball screws
- Maintenance-free self-lubricating screws and guides
- Miniature guides
- Planetary roller screws
- Precision linear units
- Precision rolled and ground ball screws
- Supports and accessories for bearing sleeves

PNEUMATICS AND AUTOMATION

- Electrical automation
- Mechanical Actuators
- Pneumatics Components
- Process automation
- Valve Terminals

SEALING SYSTEMS

- Anti-vibration elements
- Custom-designed special seals
- Guide rings
- Hygienic sanitary seals
- Metal seals
- Piston seals
- Rod seals
- Rotational seals
- Static seals
- Wiper seals

For food industry products, we can provide MOCHA CERTIFICATION

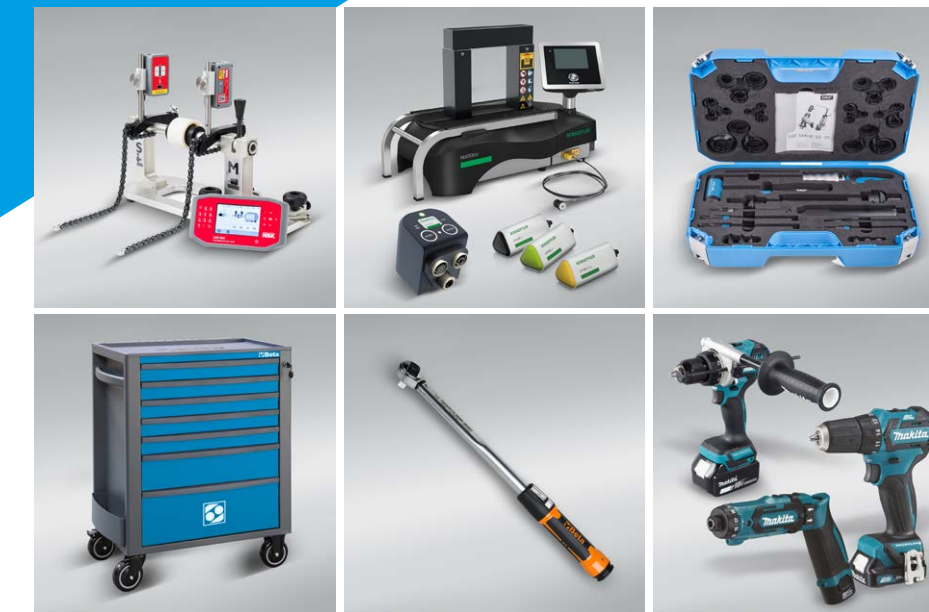

LUBRICATION AND ADHESIVES

- Adhesives
- Dual-line distributors
- Fittings and pipes
- Lubrication pumps
- Lubrication systems
- Metering Valve
- Single-line progressive distributors
- Single-point lubricators
- Special lubricants

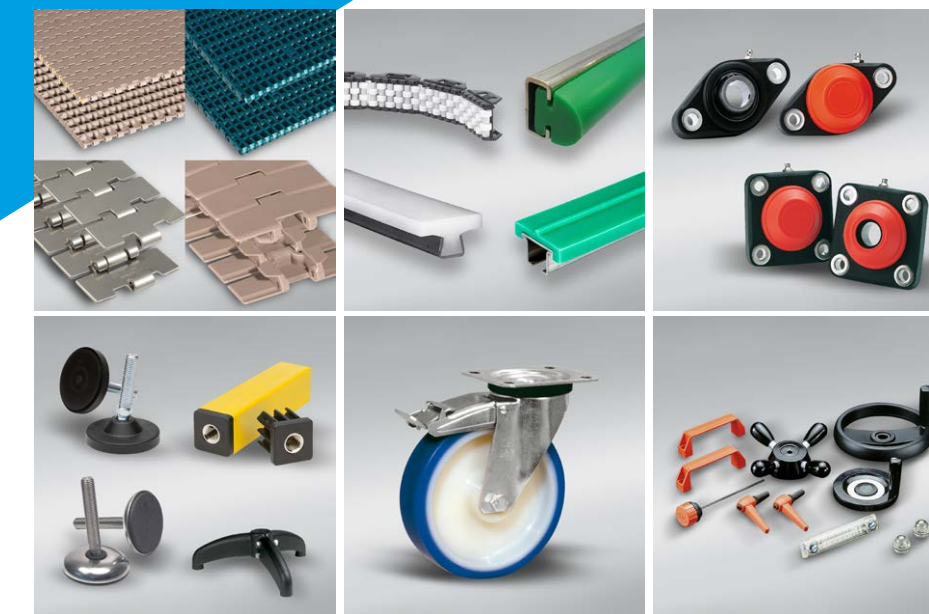

ASSEMBLY, MONITORING, AND TOOLS

- Alignment and belt tensioning tools
- Assembly and disassembly tools
- Condition monitoring
- Industrial furniture
- Laser alignment tools for shafts
- Tools

SOLUTIONS FOR TRANSPORTERS AND INDUSTRIAL MACHINES

- Bulk handling and Unit handling
- Chain and product guide profiles
- Components
- Industrial wheels
- Machine foot polyimide
- MatTop conveyor chains
- Reinforced polyamide supports
- Tabletop chains in plastic and steel
